## Pre-Review Author Disclosure Form

The corresponding author must complete and sign a copy of this form and submit it to the Editor before a paper will be sent out for review. If the paper is accepted for publication, all authors will be asked to sign a second, similar form before the paper is scheduled for publication. Please note that a conflict or apparent conflict of interest will not necessarily affect decisions on acceptance or publication of a paper, but full disclosure is required.

### Animating Statistics: A New Kind of Applet for Exploring Probability Distributions

Title of the paper (please print or type)

David J. Kahle, Ph.D.

Name of the corresponding author (please print or type)

Please check all that apply and include attachments, if necessary.

- ☒ To the best of my knowledge, all authors listed on this paper have participated materially in the research and work presented in this paper and we give our approval of this work.
- ☒ To the best of my knowledge, all parties who have participated materially in the research and work presented in this paper are listed as co-authors. If this box is not checked, you must attach a statement giving the names of any individuals who have participated materially in the research and work and the reasons that they are not listed as co-authors.
- ☒ To the best of my knowledge, the work reported in this paper has not appeared previously in a refereed or copyrighted publication nor is it currently under review with another journal. Also, it will not be submitted elsewhere before notifying the editor that the paper is being withdrawn.
- ☒ As the corresponding author for this paper, I will keep my co-authors informed about communications with the editorial office concerning review and publications matters.
- ☒ I certify that, to the best of my knowledge, all external sources of financial and/or material support for the research in this paper (i.e., sources other than from the employer(s) of the author(s)) have been clearly stated in the acknowledgements section of the paper. (By ASA policy, acknowledgements are to be blinded for referees, but available to the editors).

Check one of the following:

- ☒ The authors of this paper have no affiliations or financial involvements (e.g., stock ownership; employment; consultancies; past or expected expert testimony; past, pending, or anticipated financial aid or patent applications) that could potentially constitute a conflict of interest or an apparent conflict of interest with the research or work reported in this paper.
- or
- ☐ One or more of the authors have affiliations or financial involvements that could potentially constitute a conflict of interest or an apparent conflict of interest with the research or work reported in this paper. I certify that all such affiliations and/or financial involvements have been completely disclosed in the attached statement(s).

David J Kahle
